LIBERAL STUDIES

California State Polytechnic University
Pomona

CAREER INFORMATION

The major in Liberal Studies offers a diversified curriculum for those who are attracted to an interdisciplinary program of study. The purposes of Liberal Studies are twofold: (1) to prepare students for graduate work in such fields as law, business, human services, government, and public relations or to pursue intellectual fulfillment for its own sake; and (2) to provide the undergraduate preparation for students to teach in the public schools of California. Liberal Studies is approved by the California Commission on Teacher Credentialing as a baccalaureate waiver program for entry into a multiple subject (for elementary-level teaching) or special education program.

GENERAL INFORMATION

Three options of study are available within the Liberal Studies major at CPP. The first, Liberal Studies Option, is a flexible program of study which assures a breadth of education and provides opportunity for concentration in an area of one's choice. The second, Pre-Credential Option, is the recommended baccalaureate curriculum preparation for the teaching credential program (monolingual). The third, Bilingual/Cross-Cultural, Chicano – Pre-Credential, is the baccalaureate curriculum preparation for teaching with a bilingual, cross-cultural Chicano focus.

Admission to the Teacher Education Program is by separate application, usually in the senior year. Students choosing a career in education should consult with Teacher Education for entrance requirements for the credential program. Students are advised that the California Basic Education Skills Test (CBEST) should be taken in their junior year to appropriately address possible deficiencies prior to graduation or application to the Teacher Education program. Students taking the Bilingual/Cross-cultural option should consult with the department chair to ensure they have the proper course work and experience to meet the credentialing requirements in this area.

The Areas listed below contain the Cal Poly Pomona (CPP) lower-division course requirements and their Long Beach City College (LBCC) equivalents. **The first course listed is the LBCC department and course number followed by the CSULB department and course number in parentheses.** For example, for the equivalency Engl 1 or 1H (Engl 104), Engl 1 is the LBCC course and Engl 104 is the CSULB course. Please note that a cumulative GPA of 2.0 is required in the core courses and that by taking the courses listed, students will satisfy all General Education requirements.
