LIBERAL STUDIES
University of California, Riverside

CAREER INFORMATION

The major in Liberal Studies offers a diversified curriculum for those who are attracted to an interdisciplinary program of study. The purposes of Liberal Studies are twofold: (1) to prepare students for graduate work in such fields as law, business, human services, government, and public relations or to pursue intellectual fulfillment for its own sake; and (2) to provide the undergraduate preparation for students to teach in the public schools of California. Liberal Studies is approved by the California Commission on Teacher Credentialing as a baccalaureate waiver program for entry into a multiple subject (for elementary-level teaching) or special education program.

GENERAL INFORMATION

The B.A. in Liberal Studies interdisciplinary major at University of California, Riverside (UCR) offers a broad liberal education. The first two years introduce students to the traditional areas of learning and attempt to provide them with an understanding of their interrelationships. During the junior and senior years at UCR, students select at least two fields of concentration. The purpose is to provide a focus for student’s educational interests that enables them to acquire competence in the methodology and goals of two fields of concentrations by extending and deepening investigations begun during the first two years.

Liberal Studies majors who plan to teach in California elementary schools can take advantage of the UCR Bridge to Teaching Program (See Education section of UCR catalog). With careful planning, using many of the same courses, prospective elementary teachers can complete the approved subject matter preparation program along with their Liberal Studies major while also including early field experience in the schools.

The Areas listed below contain the UCR lower-division course requirements and their LBCC equivalents. All upper-division courses need to be taken at UCR. The first course listed is the LBCC department and course number followed by the UCR department and course number in parentheses. For example, for the equivalency Math 60 (Math 9A), Math 60 is the LBCC course and Math 9A is the UCR course.

As requirements do change, please check www.assist.org for the most current articulation information. Moreover, you must see a counselor to develop an accurate educational plan to ensure your competitiveness for admission to UCR. It is recommended that students follow the UCR (College) General Education Breadth since courses taken to fulfill major requirements can be double-counted with those required for general education (IGETC is not recommended). To thoroughly understand admissions and general education requirements please check the UCR catalog and/or meet with a Liberal Studies adviser at UCR.
