PSYCHOLOGY

CAREER INFORMATION

Psychology is a study in human behavior. Psychologists study and diagnose problems and emotional or mental disorders. Some may set up laboratory tests, while others are involved in counseling. A doctoral degree is usually required for employment as a licensed clinical or counseling child psychologist. Those with a Ph.D. qualify for a wide range of teaching, research, clinical and counseling positions in universities, elementary and secondary schools, private industry and government. Those with a master’s degree in psychology often work as school psychologists, psychological assistants, and conduct research or psychological evaluations. A bachelor’s degree in psychology qualifies a person to assist psychologists in community mental health centers, and correctional programs. All states require psychologists to have a license. The Occupational Outlook Handbook reports a starting salary for Psychologists holding a bachelor’s degree to be $19,500; while those with a master’s degree could earn a yearly salary of $29,600; and a Ph.D. degree could earn $35,800. It is possible to earn more in private practice.

GENERAL INFORMATION

Not all universities with this major are listed below. The lower division core preparation is listed for universities with which LBCC has established articulation agreements. The first course listed is the LBCC course; the course in parentheses immediately after is the university equivalent. It is generally recommended to take as many lower-division major courses as possible prior to transfer. Please check www.assist.org for the most current articulation information and information regarding minimum grade for each course, impacted major recommendations, application procedures, etc. Moreover, you must see a counselor to develop an accurate educational plan to ensure your competitiveness for admissions for your school(s) of choice. To thoroughly understand admissions and general education requirements please check the catalog of the transfer university. CSU/UC admissions and general education requirements are outlined on a separate curriculum guide.

Since this major is impacted, applicants for admission with a major in psychology will be designated as pre-majors and assigned a pre-major code. Acceptance into the pre-major category does not imply or assure subsequent acceptance into the major. Similarly, acceptance into the pre-major is not a prerequisite for admission into the major.

Admission into the major is determined solely on the basis of meeting all of the following supplemental criteria:

1. Complete the following courses with the grade of “C” or above: Psych 1 or 1H (Psy 100), 2 (200); Stat 1 or 1H (Psy 110)
2. Students who meet the criteria above and have completed at least 56 semester units of college level course work with a GPA of at least 2.50 or at least 36 semester units with a GPA of at least 3.0 will be guaranteed admission into the major.
3. Students with at least 56 semester units of college level course work and a GPA between 2.00 and 2.49 will be admitted on a space-available basis.

To apply for admission to the psychology major after meeting the supplemental criteria above, please contact the Psychology Department Peer Advising Office at 562-985-5001 at CSUL B.
